

Self Contained Engine Sprayers Can Be Carried Or Towed By Many Different Vehicles

ALL PURPOSE 200 GALLON TRAILER / SKID SPRAYERS

Our new sprayers offer the latest design in an **All Purpose Sprayer**. The low profile polyethylene tank has a full length stainless steel agitation system and a large hatch with shower head to easily put wettable powder into suspension. An additional water filling hatch is included to keep chemicals from being splashed while filling. The sprayer can be used as a horizontal boom, row line boom, and/or hose/reel/handgun sprayer.

The applications for these sprayers are endless - municipalities, golf courses, nurseries, farms, ranches, etc.
