

Hydraulic Side Shift Low Profile Flail Shredders

"GOL" SERIES

This shredder features a unique side shift system that moves horizontally on front and rear mounted heavy steel tubes. The feature allows for close coupling to the tractor for added strength and stability.

Available with hammer knives and Y blades, depending on your requirements. The "low profile" belt housing and gearbox is a great advantage when operating in orchards and vineyards.

FEATURES:

- Cat. 2, 3-point hitch
- Hydraulically offsets 22" to the right
- Low profile belt housing and gearbox
- 90 HP gearbox with built-in overrunning clutch
- Shreds brush up to 4" diameter with hammer knives and up to 1 1/2" diameter with Y blades
- Close coupled to tractor for added stability
- 5 Belt final drive
- Double row of drop forged cutter bars to increase the shredding of material
- Adjustable rear hatch - closed for maximum shredding, open for maximum forward travel

HAMMER KNIFE

Y BLADE

- Double wall hood of 1/4" thick plate
- Rotor bearings are double self-aligning
- Heavy steel belt cover with hinged door
- Front mounted safety chains and rear mounted rubber guards
