

With I Beam Sides For Added Strength

ROTARY MOWERS

The **Gearmore Rotary Mowers** are the strongest economical rotary mowers on the market today. Featuring the unique I beam sides which insures strength where the deck needs it most. Some of the other special features include floating hitch that follows the contour of the terrain, heavy round spindle pan to protect the gearbox, two heavy full length tubes 1 1/2" x 2 1/2" for deck support and laminated tailwheel, all engineered to assure years of trouble free service.

FEATURES:

- Strong I beam sides to help prevent damage to mower deck
- External deck ribbing for added strength
- Internal deck angle iron brackets for additional support
- Heavy round dished spindle pan
- Reinforced A-frame with bracing to the rear of the mower
- Floating hitch design follows the contour of the terrain
- Forged heat treated blades and blade bolts
