WARNING: The loader mounted fork attachments are specifically designed to engage and load palletized materials. Do not use forks to handle large loads, such as bales, posts, etc., and avoid carrying loose or shiftable loads, as they can fall or roll back onto operator causing serious injury or death.

PALLET FORKS

AVAILABLE FOR UNIVERSAL, JOHN DEERE, AND GLOBAL/EURO QUICK ATTACH

The new heavy duty frames are designed to handle both the 3750 and 5500 lb. capacity forks. The 10 gauge brickguard offers outstanding strength and smooth surface for protection and less load damage. Also, the convenient non-skid step offers easy operator access, except 2300 lb. capacity. The fine end visibility is excellent.

FEATURES:

- Available in 2300, 3750 & 5500 lb. capacities
- Fork tines available in 42" & 48" length
- Exclusive load retention hook for securing and positioning pallet loads
- Solid tine positioning w/spring loaded toggle operation
- Easy loading with tapered tines
