

COLLARD

TREE HEDGERS

EXCELLENT FOR HEDGING, TOPPING & SKIRTING

MODEL P2000A

The *COLLARD Hedger* is a total pruning system for orchards. Features an adjustable pruning system to hedge, top and skirt orchards. Allows growers to maximize production and reduce pruning costs. By reducing heavy crop set limb damage, opens middles for better sunlight, cleans out lower branches to reduce herbicide damage and allows passage of tractors without limb breakage.

The Model P2000A Hedger is light enough that it can be mounted on a utility size tractor thus reducing operating costs and compaction.

- Maximize production and reduce pruning cost with better management of your tree canopy
- Reduce heavy crop set limb breakage
- Clean your lower hangers to reduce herbicide damage
- Open middles for better sunlight - improve harvest conditions
- Hedge when you want
- Allow passage of tractors without limb damage or operator risk

COLLARD®

HEDGING, TOPPING AND SKIRTING

An almond grower who purchased a COLLARD Tree Hedger states: "The COLLARD Tree Hedger has larger diameter cuts than any sickle machine, less maintenance, and fewer moving parts. The blades throw much of the brush into the row instead of dropping into the tree canopy. The COLLARD Tree Hedger is more convenient - able to cut how you want and use a smaller tractor that has a lighter "footprint" in the field."

FEATURES:

- 7 cylinder hydraulic system which allows for many different applications
- Electro hydraulic controls
- 18" Diameter S.S. saw blades are standard with optional flail knives for green material
- 9 Blades per side - optional 6, 7 and 8 blades per side
- Requires minimum of 12 GPM @ 3000 PSI
- Designed so that blades throw much of the brush into the rows, instead of dropping into the tree canopy
- Effective trimming for both nut and fruit orchards
- Cut lengths 8, 9.4, 10.7 or 12 feet

NOTE:

Tractor speeds will depend on the diameter of branches, type and density of the foliage.
