COLLARD®

HEDGING, TOPPING AND SKIRTING

An almond grower who purchased a COLLARD Tree Hedger states: "The COLLARD Tree Hedger has larger diameter cuts than any sickle machine, less maintenance, and fewer moving parts. The blades throw much of the brush into the row instead of dropping into the tree canopy. The COLLARD Tree Hedger is more convenient - able to cut how you want and use a smaller tractor that has a lighter "footprint" in the field."
