

# Manure Spreaders

**MODEL C50GD**

**Key Conestoga features unavailable from the competition are:**

- "Cor-ten" copper bearing steel is used to provide atmospheric corrosion resistance four times that of plain carbon steel, for longer service life
- Conestoga boxes are of all-wheeled construction, chemically washed, painted with epoxy primer, and finished with a highly corrosion resistant, two-part urethane paint.
- All Conestoga spreaders come standard with our own design, STAINLESS STEEL, T-rod apron chain, which provides superior durability and service life.
- Beater paddles are a rooster comb design and are bolted on so they can be replaced when wear does occur plus.
- Conestoga spreaders are designed with 12 paddles, more than the competition.
- This combination of paddle design and additional paddles improves shredding action and the overall spread pattern

**Outstanding features allows Conestoga to give the best warranties in the industry:**

- "10 Years" on the spreader box
- "Lifetime" on the poly floor and apron chain
- "3 Years" for defect in material and workmanship

**SPECIFICATIONS:**

	<b>C-25</b>	<b>C-50</b>	<b>C-50 PTO</b>	<b>C-80 PTO</b>	<b>C-125 PTO</b>	<b>C-175 PTO</b>
Capacity	20 cu. ft	38 cu. ft	38 cu. ft	58 cu. ft	85 cu. ft	115 cu. ft
Number of Horses	1-5	4-6	4-6	5-10	10-25	20+
Drive	2-Wheel Ground Drive		540 RPM PTO
