

DRAG SCRAPERS

HIGH CAPACITY MODELS

Model HC10 Shown

The "HC" High Capacity Series of Drag Scrapers feature heavy, large side plates - 1/2" thick. These side plates are 30" high by 40" deep, thus allowing for dragging and depositing large amounts of material. Like the "AP" series, the beam tongue extends to the rear moldboard and is held in place by a 5" x 5" heavy gusseted tube. The new axle assembly is built with 4" x 2" tubing. The larger dairies and feedlots find these scrapers best for their operations.

Now featuring larger tires and fold away tongue jack as standard equipment.

FEATURES:

- For tractors 70 to 120 horsepower
- Working widths of 8, 10, & 12 foot
- 1/2" x 30" x 40" Deep side plate
