

## HIGH PRODUCTION PRODUCTS FOR TRACK LOADERS

Track Loaders can be an effective machine for vineyards. However, very few implements are available, which greatly limited sales. Thus, Gearmore developed a complete line of some of our most popular implements with SSL quick attach mount. Now, all implements are in front, no looking back for better operator control.

### VINE TRIMMERS

- Trims two half rows
- Cuts tops, sides and skirts all in one pass
- Blade frames adjust from 4' to 9'

### VINE TRIMMERS/UNIV.

- Trims two half rows
- Frame blades adjust for VSP, California sprawl, double cross arms and quad

### PREPRUNERS

- Cuts long canes small enough to fall through the vines for easy clean-up
- Featuring unique magnetic sensors for opening and closing the cutting heads

### BOX PREPRUNERS

- Cane cutting heights hydraulically adjust from 47" to 86"
- Trims one complete row
- Three hydraulic motors to power the saw blades

## IN-ROW CULTIVATORS

- Cultivates one vineyard row
- Mounts on the front of track loaders
- Hydraulic cylinder for adjusting row widths from 6' to 8'

## IN-ROW CULTIVATORS

- Cultivates two rows
- 2 Models 8' to 11' & 9' to 12' rows
- Joystick is mounted with magnetic base for easy positioning from cultivator to track loader

## FLAIL MOWERS

- Shreds pruning up to 1 ½"
- Floating hitch allows mower to follow the contour of the ground
- Available in cutting widths of 61", 69", & 79"

## ROTARY CUTTERS

- High speed 3 blades for heavy brush
- Available in standard or high flow
- Cutting widths of 60", 72", & 78"

## HYDRAULIC DIGGERS

- Handy tool for re-planting vines
- Many models to fit your track loader G.P.M.
- Auger diameters from 12" to 24"

## GRADING SCRAPERS

- Great for maintaining vineyard access roads
- Dual cutting edges cut out high spots and fills in holes
- Working width - 7 foot
