

# FLAIL SHREDDERS GHF-FS SERIES

## DESIGNED FOR FINE SHREDDING OF ORCHARD BRUSH

GHF90-FS Shown

Hammer Knife

The new GHF-FS Series was developed for fine shredding of orchard brush. These shredders feature 4 internal re-cutter bars to reduce the brush until it is finely shredded. The rake teeth keep the material inside mower hood to reach a consistency of decomposable mulch. The large 10 inch diameter rotor is mounted with drop forged hammer knives giving optimum shredding performance. These shredders are specially designed for severe conditions of orchard brush, but can also be used in weed abatements, tall grasses, heavy weeds, and cover crops.
