

# DIGGERS

Hydraulic  
7 sizes to match your G.P.M.

The **Pengo "CS" Series** delivers dependable, high torque drilling power in a compact, easy-to-handle design. With advanced gearing, oversized bearings and a secure Lock Shaft System, the "CS" Series is engineered for long life, low maintenance, and maximum productivity across tough soil conditions.

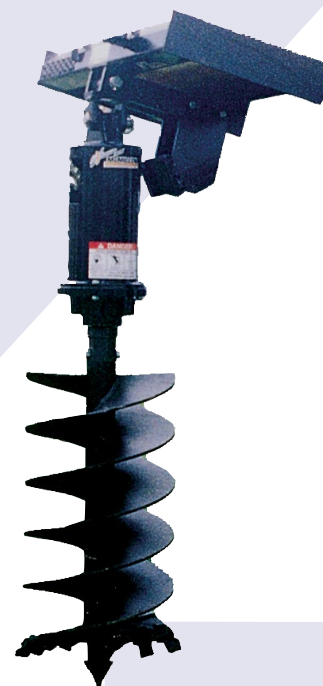

## FEATURES:

- ◆ 7 Models to match G.P.M. 5 - 47.6
- ◆ All units feature hunting gearing, except D450
- ◆ Oversized bearing for improved load handling
- ◆ Secure lock shafts
- ◆ High torque motors ensure digging through the toughest of conditions
- ◆ Adaptor plate mounting on most popular skid steers, backhoes, excavator, etc.

| Model #                | D450   | CS16-15 | CS28-22 | CS35-25 | CS41-25 | CS62-48  |
|------------------------|--------|---------|---------|---------|---------|----------|
| Min. Hyd. Flow G.P.M.: | 5      | 6.6     | 10.6    | 10.6    | 15.9    | 18.5     |
| Max. Hyd. Flow G.P.M.: | 10     | 14.5    | 22.5    | 25.1    | 25.1    | 47.6     |
| Max. Auger Diameter:   | 12"    | 24"     | 30"     | 36"     | 36"     | 48"      |
| Output Shaft Options:  | 2" RD. | 2" HEX  | 2" HEX  | 2" HEX  | 2" HEX  | 2.5" HEX |

Medium duty, heavy duty and rock augers are available. Auger extensions available in 2" hex, in lengths 24", 48" & 72".

## "CS" SERIES

## ROCK AUGERS - "HDR" STYLE AUGERS

For solid, frozen ground and compacted soils

| "HDR" Auger                                                                         | Dia. | Tooth Qty.                                                                                                                                                                                                  |
