SINGLE SHANK RIPPERS

GR100, GR200, & GR300

PRECISION YOU CAN COUNT ON.

The GR100 is for tractors up to 25 H.P. These Rippers are great for cutting narrow trenches for irrigation pipe. The optional 15" furrower shovel digs a smooth trench for water flow. The GR200 is for tractors up to 50 H.P. This unit is recommended for breaking up compacted soil to increase root growth and yields. The GR300 is for tractors up to 75 H.P. and was designed for heavier duty use. Thus, the ripper can be used for high horsepower tractors. This ripper is recommended when deep ripping required.

GR100

GR200

GR300
