ROTARY HARROWS

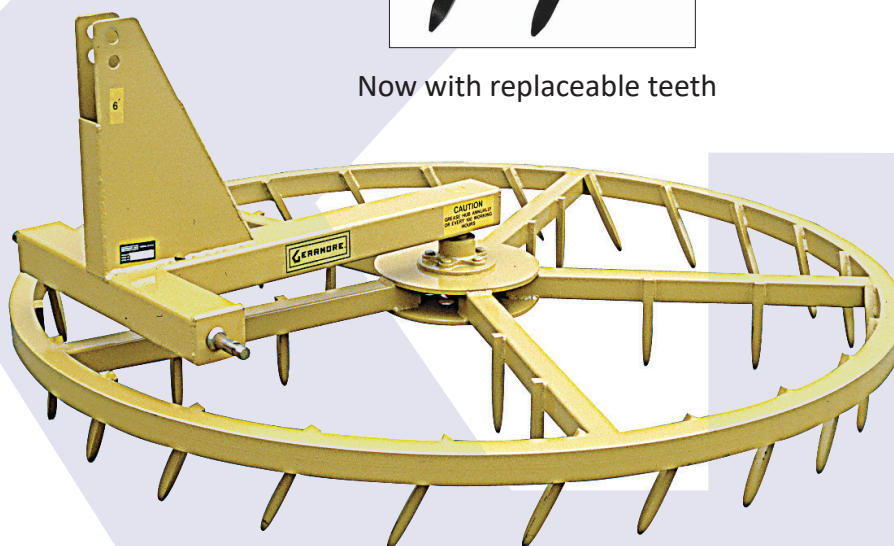

"GRH" SERIES

THE STRATEGIC SOLUTION FOR PRISTINE SOIL AND EFFORTLESS WEED CONTROL.

The GRH Series of Rotary Harrows was designed to aerate soil and pull weeds. The unique turning action allows the harrow to level soil by re-distributing it inward. Excellent tool for moving high spots away from fences and walls. Levels, floats and breaks up clods. The ideal product to use in arenas.

Now with replaceable teeth

FEATURES

- Cat. I, 3-point hitch
- 2" x 2" square tubing wheel with 5 spokes
- 5 1/2" high carbon teeth
- Sealed bearing hub
- Heavy 3" x 4" tubing frame
- 8" bolt on replaceable teeth
- Angled teeth provide trash clearance
