BOX PREPRUNERS

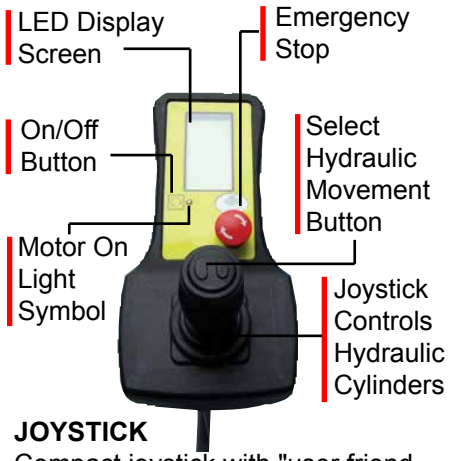

FAST, EFFECTIVE SYSTEM FOR HIGH WIRE VINEYARDS

ENGINEERED FOR PRECISION PRUNING IN HIGH WIRE VINEYARDS.

The Collard Box Prepruners were developed for pruning in "High Wire" vineyards. These Box Prepruners are very versatile as the four hydraulic cylinders operate down, in/out, and tilt 10° right and left. The operator has full adjustment control with a handy joystick. The one complete row unit features three aluminum cutting elements with each having two 17.7", 236 teeth saw blades. The heavy duty single post main beam allows for easy mounting to the front of tractors. Also, available are two row prepruners custom mounting to harvesters and other vehicles.

Model PCI3000 Box shown

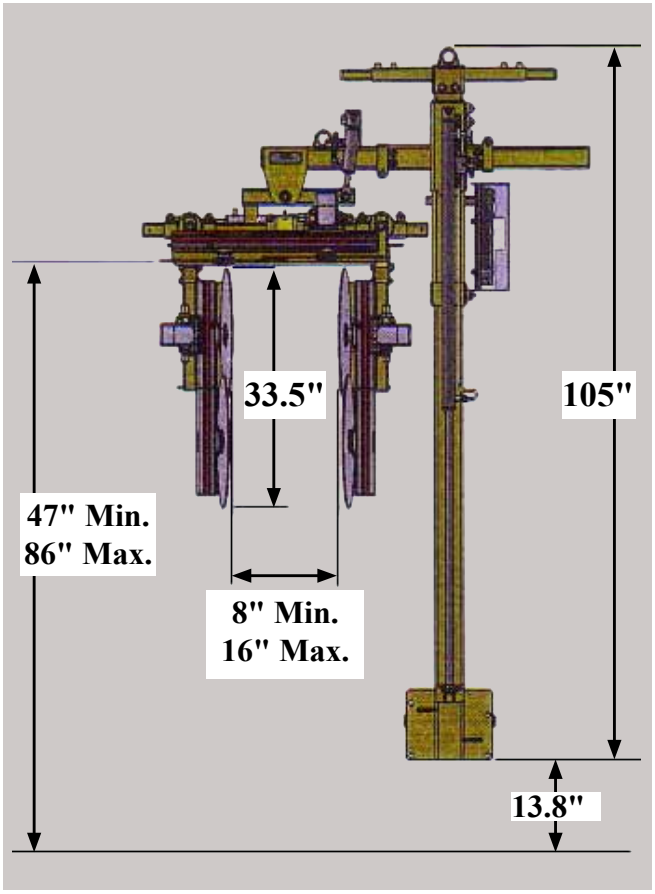

JOYSTICK
Compact joystick with "user friendly" controls.

BOX PREPRUNERS

FEATURES

- Designed to prune one complete row
- Heavy front mount main beam
- Three 15cc hydraulic motors to power the saw blades
