TREE SKIRTER

HYDRAULIC ADJUSTMENT

THE ULTIMATE PRECISION SOLUTION FOR TRIMMING.

This COLLARD Skirter trims two half rows with 6 high speed swinging stainless steel knives. The heart of this Skirter is the unique lightweight aluminum alloy extrusion that provides a rugged rust proof frame work for the cutting knives. The blade housings are strong with breakaway system. The COLLARD Tree Skirter is a fast, effective way to keep lower branches off the ground. The main reason to skirt trees is to prevent easy access of insects and pests of all types. Another important reason to skirt is to provide clearance for other operations, such as spraying and mowing. The Skirter has a unique design which allows for use on flat, hilly and terraced orchards.

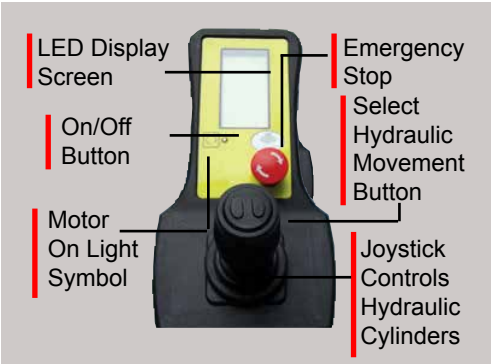

TREE SKIRTER

FEATURES

- Skirter is strong but lightweight and easy to operate
- Heavy double tubing main frame
- Double tubing socket bracket to mount on tractor frame
- High speed stainless steel double cutting edge swing knives
- High capacity 15cc hydraulic motors with power band belts
- Flow limiter for hydraulic motors with power band belts
- Flow limiter for hydraulic motor controls
- Smooth, thin line blade transmission housing for easy movement through the foliage
- Wide range of adjustments for positioning skirts to each grower requirements
- Blades turn at 2,200 R.P.M. ensures clean cut of branch ends which dry and seal to reduce the risk of disease
- Equipped with electro hydraulic joystick controls
- This unit runs smooth and quiet with no vibration
- Up/down two hydraulic cylinders with 20" stroke, each side In/out two hydraulic cylinders with 20" stroke, each side
- Three swinging knives per housing with cut of 50"
- Knife housing angle manually and adjust from 0 to 45 degrees horizontally
- Hydraulic cylinders are fitted with load/hold check valves for safety in case a hose fails
- Heavy duty shipping/storage stand for storing skirter
- Comes complete with hydraulic hoses and quick couplers

Skirters are mounted on special shipping/storage stand

Joystick with "user friendly" controls

Double edge knives overlap for cleaner cut

OPTION

- Stainless steel saw blades 17 ¾" diameter for large branches
