# INDUSTRIAL BOX SCRAPERS

## "2G2M" SERIES

### STRENGTH, PRECISION, AND CONTROL IN EVERY SHANK.

This series of scrapers feature the same design as our 2G2 Hydraulic Scarifier Scrapers, except with manual adjustable shanks. The major feature of the scrapers is heavy shank pockets are attached to the rear on the main beam for added strength. The shank locking pins can quickly be changed to obtain shank settings of 2", 4", and 6" deep. These scrapers are great for ripping, leveling, finish grading, backfilling, and moving the soil to desired locations.

# INDUSTRIAL BOX SCRAPERS

## FEATURES
