INDUSTRIAL BOX SCRAPERS

TACKLE TOUGH JOBS WITH EASE

"4G2" SERIES

CAT I & II A. S. A. E. QUICK HITCH COMPATIBLE

The 4G2 Series Scrapers are designed to handle the demanding work of commercial landscaping and finish grading. The unique floating tailboard allows for easy digging as not being obstructed by the rear moldboards cutting edge. These heavy duty Scrapers are available in widths off 72", 76", 80" & 84" for tractors 50 to 70 H.P., 2 or 4 wheel drive.

"4G4" SERIES

CAT I & II A. S. A. E. QUICK HITCH COMPATIBLE

The 4G4 Series Scrapers are extremely rugged and ideal for construction site clean-up, trench back-filling and demanding material handling. The scrapers feature heavy double plated moldboard, 24" high to move the maximum amount of dirt. The hydraulic operated scarifier beam raises high enough so the tractor operator can see the cutting edge. Available in widths of 80", 84" & 88" for tractors 60 to 100 H.P., 2 or 4 wheel drive.

Top mast wraps around 3 sides of main beam for added strength

To make box scrapers more versatile, nothing works better than being able to control the tilt and pitch of the implement. Grading jobs are more accurate because you have complete control to develop the slopes you require when landscaping, building roads, etc. We have developed a complete line of Top and Tilt Kits to fit most popular tractors.
