

DITCH BANK MOWERS

NEW

These **Flail Ditch Bank Mowers** were designed for mowing in difficult locations without placing the tractor and operator in unsafe situations. The mowers feature two hydraulic cylinders, one for side shift and one for tilt. The mowers shift to right and tilt down. These units have hammer knives to cut grasses and heavy weeds up to 1 ½ " in diameter. Excellent for mowing ditches, tree lines and road right of ways, etc.

FEATURES:

- Cat. I & II 3-point hitch, 540 R.P.M.
- Shreds weeds and grasses up to 1 ½" in diameter
- For tractor horsepower of 30 to 70
- 70 H.P. gearbox with built-in overrunning clutch
- Hydraulic parallel linkage for side shifting
- Hydraulic tilt
- Drop forged hammer knives
- Two rows of heat treated re-cutter blades to shred finer
- 5 ½" adjustable rear roller
- Side skids
- Front and rear mounted metal flaps
- Comes complete with hydraulic hoses to tractor
