ROLLER COMPACTORS

"SC" SERIES

ENGINEERED FOR DEPENDABLE RESULTS.

The "SC" Series Compactors are built with a solid steel axle running the entire length of the cylinder. Water can be added through a 1" diameter fill plug to increase the working weight of the compactor. These units are well built and powder coat painted for a long lasting finish.

FEATURES

- 16" and 20" diameter rollers
- ¼" wall pipe thickness
- 60" & 72" available with Cat. I, 3-point hitch
- Solid continuous length roller axle
- 1 7/16" pillow block bearings
- 1" diameter water filling plug
