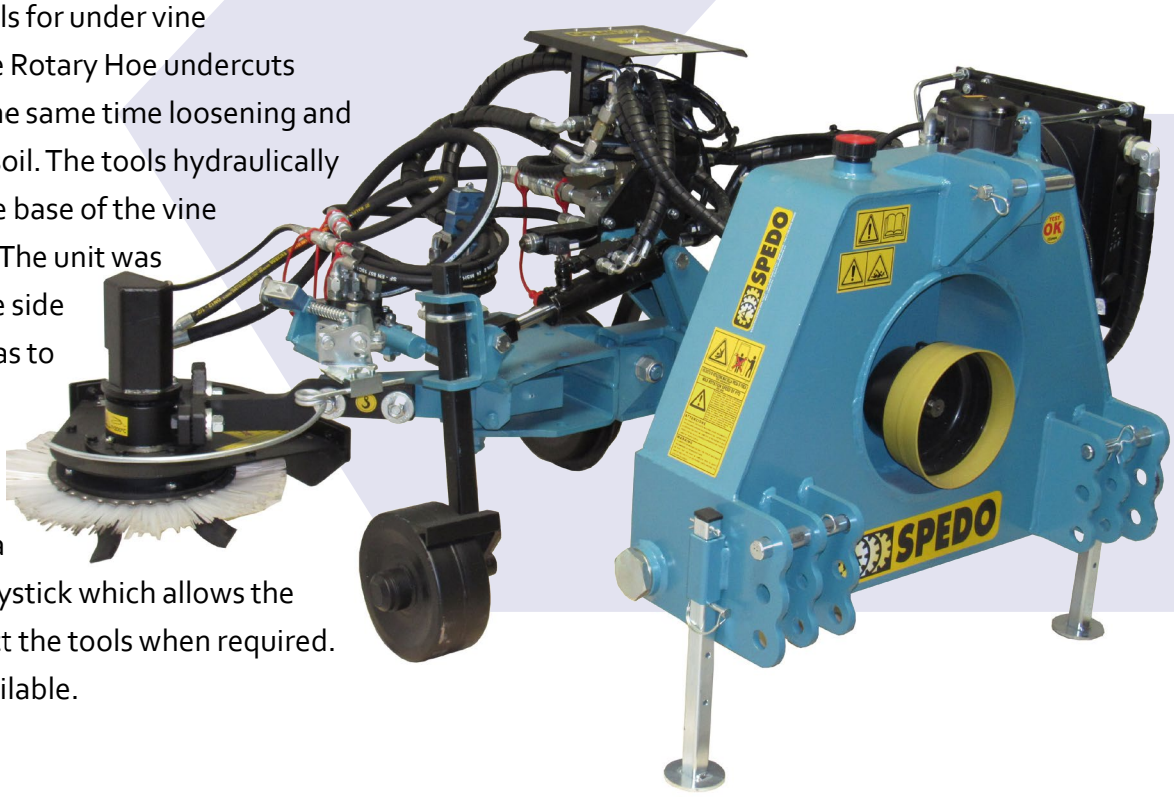
SPEDO IN-ROW CULTIVATORS

IN-ROW IMPLEMENT FOR NARROW ROW VINEYARDS

UNLOCK YOUR VINEYARD'S POTENTIAL.

Very effective tools for under vine maintenance. The Rotary Hoe undercuts weeds, while at the same time loosening and turning back the soil. The tools hydraulically retract around the base of the vine without damage. The unit was developed for one side weeding only, so as to operate at higher speeds with safe, accurate control. Also, standard is a remote control joystick which allows the operator to retract the tools when required. Many options available.

Model M1TR5115J



Shown with optional
Rotary Hoes & Gauge Wheel

IN-ROW CULTIVATORS WITH 5 IMPLEMENTS

FEATURES

- Cat. I or II, 3-point hitch
- Double tubing main frame
