TANDEM DISCS

"GV" SERIES

ULTIMATE TILLAGE SOLUTION.

Narrow row crops like grapes, berries, pole tomatoes, etc., also require heavy duty tillage tools. Our Narrow Row Tandem Disc fits those requirements. This disc is excellent for knocking down weeds, leveling, and mixing in residue. The notched front blades aid in cutting through hard soils, while the rear smooth blades give a smooth finish. Flange mounted, double sealed, shielded bearings. A number of options are available, such as: dirt shield fenders, extension blades, bearing guards, special low position 3-point hitch.

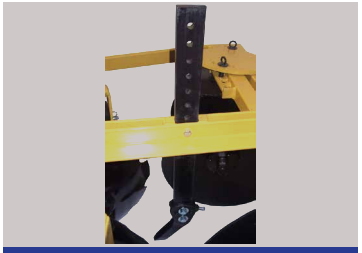

TANDEM DISCS
